Digital Pedagogy Lab Delaware 2018

Digital Pedagogy Lab Delaware is a practical professional development opportunity for graduate students, postdoctoral teaching fellows, librarians, alt-acs and faculty to teach and work with digital technology. Participants will practice hands-on solutions for the common challenges teachers and learners face when working digitally.

However, this will not be simply a 2 day tutorial. Instead, Digital Pedagogy Lab Delaware will ground itself in philosophical and theoretical discussions of digital technology, identity, and pedagogy while also offering participants opportunities to engage with Hybrid Pedagogy’s learning community through pre and post-institute activities related to course design projects.

#DigPedLab

Friday, February 16, 2018  Saturday, February 17, 2018

A PROFESSIONAL DEVELOPMENT EVENT THAT EXPLORES THE ROLE AND APPLICATION OF DIGITAL TECHNOLOGY IN TEACHING.

Reserve your space. This two-day event will take place on the campus of the University of Delaware. Registration is limited to 30. All registration costs will be covered by the Interdisciplinary Humanities Research Center. For an application, please email: IHRC-info@udel.edu

Team Taught By:

Sean Michael Morris is the Director of Digital Pedagogy Lab and Hybrid Pedagogy. He is also Senior Editor of Research and Education at Instructure.

Jesse Stommel is Director of the Division of Teaching and Learning Technologies at University of Mary Washington. He is also Founder and Director of Hybrid Pedagogy: a digital journal of learning, teaching, and technology.
