Jack Baroudi, Interim Deputy Dean and Professor
Alfred Lerner College of Business and Economics
University of Delaware

Dear Jack:

The Department of Biological Sciences has reviewed your request to change the requirements for the MBA portion of the joint Ph.D./MBA such that they are consistent with the requirements for the regular MBA. In particular, the 3-credit course ACCT 801 (Management Accounting and Control) would be replaced with two 1-credit, four-week courses (BUEC 601 Developing Emotional Intelligence and Critical Thinking and BUEC 603 Communicating, Personal Branding and Building Career Networks). The Department of Biological Sciences supports this change.

In accordance with the Department of Biological Sciences By-laws, this proposal has been considered by the Graduate Affairs Committee and approved by vote of the department faculty at a duly scheduled faculty meeting, which was held on May 5, 2017.

Best regards,

A handwritten signature in black ink that reads "Robin W. Morgan".

Professor and Chair
