From: John Pelesko 
Dean of College of Arts and Sciences

Re: Support of Psychological and Brains Sciences Certificate Programs

I am happy to provide my enthusiastic support to the creation of 3 certificate programs for matriculated students in the Psychological and Brain Sciences (PBS) PhD program: (1) Developmental Processes Certificate; (2) Quantitative Analysis Certificate; and, (3) Social, Cognitive, and Affective Neuroscience (SCAN) Certificate. I recognize each to be a catalyst to promote study in cross-disciplinary/cross-area themes within the PBS department with the majority of coursework completed within the department.

Sincerely,

John Pelesko
Professor and Dean
