January 25, 2019

Dear Professor Zurakowski,

I am writing to offer enthusiastic support of your application for permanent status of the Biomedical Engineering PhD program.

The BME PhD includes the option to satisfy the program statistics requirement through Chemical and Biomolecular Engineering CHEG 604 (Probability and Statistics for Engineering Problem Solving). BME students are welcome to enroll in this course, which is recognized for its depth and rigor. The academic strength of the BME PhD students will elevate the course and encourage important cross-disciplinary work in the college and university.

Sincerely,

A handwritten signature in blue ink, appearing to read 'E. Furst', with a long horizontal flourish extending to the right.

Eric M. Furst
Professor and Department Chair
