Re: Support of Psychological and Brains Sciences Certificate Programs

October 30, 2018

Dear Faculty Senate Academic Affairs Committee,

I am happy to provide my enthusiastic support to the creation of 3 certificate programs for matriculated students in the Psychological and Brain Sciences (PBS) PhD program:

- (1) Developmental Processes Certificate;
- (2) Quantitative Analysis Certificate; and,
- (3) Social, Cognitive, and Affective Neuroscience (SCAN) Certificate.

I recognize each to be a catalyst to promote study in cross-disciplinary/cross-area themes within our department.

Sincerely,

A handwritten signature in black ink that reads 'Robert Simons'.

Robert Simons  
Professor and Chair
