Patricia Syvrud, G.G.
Minerals, Materials and Society Program Development Manager
College of Earth, Ocean and Environment
University of Delaware

Dear Ms. Syvrid:

On behalf of the Department of Civil and Environmental Engineering, I'm pleased to support the proposal for the new, interdisciplinary Minerals, Materials and Society program. We do not foresee any negative impacts on our department, and welcome the inclusion of course CIEG 631 Industrial Ecology Methods: Life Cycle and Material Flow Analyses for a Circular Economy as an elective for this program.

Sincerely,

A handwritten signature in cursive script that reads "Sue McNeil".

Sue McNeil,
Professor and Chair
