To Whom It May Concern:

I am writing in reference of the deactivation of the Master of Art Interaction Design (IxD) Graduate Program. In discussions with Program director, Associate Professor Ashley Pigford, we decided that, due to insufficient enrollment and other programmatic considerations, it was in the department's best interests to deactivate the program at this time.

Should you have any questions or require any additional information, please do not hesitate to ask. Thank you for your time and consideration.

Sincerely,

Greg Shelnutt
