October 10, 2019

Dear Faculty Senate Committee,

I enthusiastically support the development of a new certificate in Computer Science Education offered jointly by the School of Education and the Department of Computer and Information Sciences. The preparation of high quality computer science teachers has been identified as a national priority and the greatest challenge in efforts to broaden participation in computing among under-represented populations.

The School of Education is committed to offering all required courses for the graduate certificate on an annual basis to facilitate completion of the program among candidates.

The School of Education is a committed partner in this interdisciplinary effort which has the potential to advance and contribute to the growing DE economy.

Sincerely,

A handwritten signature in cursive script that reads 'C. Mouza'.

Chrystalla Mouza, Ed.D.
Director & Distinguished Professor
