Maloba.

This email serves to notify you that the Department of Sociology and Criminal Justice supports your request to have SOCI661 course in your MA program. If I can provide additional information, let me know. Best of luck to you on this exciting new graduate program. Karen

Subject: FW: Support for AFRA Graduate courses

Dear Karen:

As you may already know, the Department of Africana Studies (AFRA), is in the final stages of putting together material to be presented to the Faculty Senate requesting the establishment of MA and Graduate Certificate in AFRA.

Some of the courses considered for inclusion are owned by your department. As per UD protocol, I am writing to request permission from you to allow AFRA to include these courses as part of this proposal. We are hoping that you will allow AFRA to proceed.

The Senate will require a letter(e-mail is fine), signaling your approval. This letter will be part of the filed material. We are due to proceed with the filing by Tuesday next week. Please let me know if you have any questions. I have attached the preliminary proposal as required plus the courses affected.

Best,
Maloba.
